

## INFORMATION FOR CONTRIBUTORS

Only original papers (not printed in any other publication) concerning investigations in soils, agricultural chemistry, soil biology, and soil technology will be published in the Polish Journal of Soil Science. The limit of each paper is 8 printed pages.

The papers are published only in English with a short summary in Polish. Typed papers should be sent in 2 copies and on a diskette in Word for Windows to the Editors. They must be already translated into English. Polish authors are kindly asked to enclose copy in Polish.

The typed manuscript should contain beside its complete title the following data: the author's full name, his scientific degrees, the name and address of his institution and very short summary (about 50 words).

The references are to be arranged alphabetically and numbered. First comes author's surname and the initial letter of his name, then the name of publication (according to its abbreviations commonly used), volume number, page, and year of publication.

Tables and figures should be given separately with Arabic numerals.

Authors receive one copy of the journal. Address paper and all correspondence to: Department of Soil Science, Maria Curie-Skłodowska University, ul. Akademicka 19, 20-033 Lublin, Poland.
